Date: 23 Sep. 24

Dear Valued Customers,

Subject: Price Adjustment Notification for Select Rectorseal Australia Products

We hope this message finds you well. At Rectorseal Australia, we are committed to delivering high-quality products and services that meet your HVAC-R needs effectively. It is with regret, however, that we must inform you of an upcoming price adjustment affecting two specific items in our product lineup.

Effective 1st October 2024, the following adjustments will take place:

1. **Dust Free Duality Mini-UV (formerly item number 89097, now replaced by item number DF19200):**
 - Price Increase: 77.85%
2. **NAVTEK Recovery Unit 2-Cylinder (item number 13066):**
 - Price Increase: 36.3%

These adjustments reflect changes in production costs, raw materials, and other economic factors beyond our control. Despite our best efforts to absorb these increases, we find it necessary to adjust prices to maintain the quality and reliability you expect from our products.

We understand the impact of such adjustments on your operations and budget planning. Our team remains committed to providing competitive pricing while continuing to deliver exceptional value and service. Should you have any questions or require further clarification regarding these changes, please do not hesitate to reach out to your dedicated Rectorseal Australia representative.

We appreciate your continued trust and partnership with Rectorseal Australia. Thank you for your understanding and ongoing support as we navigate these challenges together.

Warm regards,

A handwritten signature in black ink, appearing to be "Craig Bicket".
